Wedding Photograph

**TAKING
MOMENTS**

PICTURES FOR LIFE

Taking Moments Photography

"Taking Moments" is a wedding photography studio that manages to define itself based on photojournalism principles and influenced by cinematic language: Trust, closeness, and knowledge, which allow us to make key events evident and memorable, moving from the emotional to the experiential. When left undocumented, it becomes an accomplice that moves slowly, with attention and passion for details, and with the same passion, we document each moment.
